ONTARIO IAO MEETING

Friday May 16, 2025

Guest Speakers

Dr. Kenneth Lau, DDS

Dr. Kenneth Lau: graduated from Indiana University School of Dentistry. Dr. Lau has studied extensively, and achieved many credentials for his work in orthodontics, Cephalometric, TMD, 3-D imaging, and Software Development. His approach to diagnosing and treating Orthodontic and T.M.J. pain problems is a comprehensive evaluation of medical history, dental history, 3-D imaging, occlusal exam, airway exam, O.S.A., and muscle studies. The treatment protocol is to treat the problems' cause and not just the symptoms. Oral facial dysfunction is best defined as dysfunction of the Teeth-Muscles-Jaw joint complex.

Dr. Lau's many achievements include Fellowship and Mastership with the International College of Cranio-Mandibular Orthopedics. He also holds Fellowship and Distinguished Fellowship with American Academy of Craniofacial Pain. Finally, he has achieved Fellowship, Diplomate, and Master Senior Instructor status with the International Association for Orthodontics. The IAO has also bestowed its two highest awards to Dr. Lau, the Dr. Waldemar Brehm Education Award and Dr. Leon Pinsker Achievement Award. Dr. Lau has also held some highest leadership positions in the IAO as he is currently the North Central Sectional President, and was the President of the Association from 2022-2023.

Dr Jeremy Kurtz

Dr. Jeremy Kurtz is a graduate of U of T Dental School and a general dentist for 25 years, who maintains a unique private practice in Toronto that focuses exclusively on Invisalign and dental implant therapy. Dr. Kurtz has been a guest lecturer at the Invisalign Summit in Las Vegas from 2019-2023. He is a Blue Diamond Plus Top 1% Invisalign GP provider and has treated over 5000 Invisalign cases. He has published multiple articles in the AACA Journal and enjoys making his patients smile with Clear Aligner Therapy.

Comprehensive Dentistry with Invisalign Smile Architect

This course takes a holistic, interdisciplinary approach, incorporating preventive, diagnostic, and treatment strategies to address oral health, function, restoration, and esthetics. Attendees will gain valuable insights into case selection and treatment planning for a variety of pre-restorative orthodontic cases, including deep bites, worn dentition, and implant cases. They will also learn how to digitally plan these cases from start to finish using the Align Digital Workflow and Smile Architect.

Learning Objectives:

- **Integrated Patient Care:** Effectively integrate digital records and orthodontic procedures to develop comprehensive, patient-centered treatment plans.
- **Clinical Excellence:** Enhance clinical skills in restorative procedures and Invisalign treatment.
- **Practice Workflow:** Leverage digital tools to streamline key practice workflows.
- **Business Strategy:** Successfully incorporate ortho-restorative services into your practice.

Dr. Mohamed A. Mohamed

Swallowing Disorders, Voice Disorders, and Myofunctional Therapy

Dr. Mohamed A. Mohamed holds a Master's Degree in Speech–Language Pathology, a Master's degree in Psychology, and PhD in Clinical Psychology. In addition, he has been a Certified Orofacial Myologist (COM) since December 2013. Mohamed holds a Certificate of Clinical Competence (CCC) from the American Speech-Language-Hearing Association (ASHA). He is a Registered Speech–Language Pathologist with the College of Audiologists and Speech–Language Pathologists of Ontario.

He is the founder and owner of the Swallowing, Voice and Speech Rehab Clinic in Mississauga, Ontario which opened in 2010.

Dr. Mohamed is an approved instructor with the International Association of Orofacial Myology (IAOM). His course "Tongue Thrust and Beyond: A Myofunctional Course" is held four times a year, teaching in Canada, United States, and around the world.

Dr. Mohamed is an adjunct professor at Durham College and currently he serves as an academic advisor at the Department of Health and Community Services
